-Life in the West End has been rather monotonous for several works. We are not much on constions and noted for a quiet monotonous dignity which is pecu-llarly our own. The ladies of the Christien church, however, propose to get up, on Friday evening, 27th inst., an entertainment consisting of music, instrumental and vocal, to be succeeded by a supper and social reunion. In the mindeal department our best home talent will be aided by such names as Dr. and Mrs. Lee F. Huffman, of Stanford; Miss Lillie Foster, of Lexington; Prof. and Mrs. Walter, of Harrodeburg, and others. As to the gastronemies, the Hustonville ladies are too well known to need commendation. As the object of the entertainment is to assist in raising a fund to pay for & church organ all lovers of good music wil me grad to encourage the enterprise.

-As We have no aspirant for office and had no delegate at the inauguration, we can look with comparative calmness on the exciting and stightly humilisting scenes being enacted at the Nation's to pral. But the pomp, pride and circum-suce, the grand display and garger to clitter and wild enthusiasm of leauguration day have passed away and given place to the deep carses of the disappointed, the servous anxiety of the expectant, and the dire sicknam of heart from hope deferred experirealmost a god. And now the swelling host are following with foud acwake of Sultivan the slugger. Yet in twenty years from the present the name of neither will be found except in antique sentences carrying conviction and arou ing enthusiasm wherever they reverberated and now we behold him "retired" - hired to come down from his lofty pedestal on \$500 per annum! Three performing seals are said to be seen at the Westminister squarinm in Lon-don. They perform on such musical instruments as the banjo, guitar, drum and cymbals; they smoke, and in the comic part of their performance a blind member of the trio plays the part of the needy knife grinder; while snother, left to rock a cradie, overturns its baby charge into the tank. They drive from highes, carrying sticks out of the water as retriever dogs do, and catch fish and take them unburt to their master. And one of them has been taught to save life. The Ohio and Mississiani.

The sesson for West bound business will soon begin, and the merits of the different lines are being vigorously urged. Among the candidates for public favor no line receives or deserves a better recognition than the Onio & Mississippi Railway.
